Ingestion: Rinse mouth with water and then drink plenty of water. Seek immediate medical attention. DO NOT induce vomiting. If vomiting occurs, give fluids again. Have physician determine if patient's condition allows for induction of vomiting or evacuation of the stomach. Do not give anything by mouth to a convulsing or unconscious person.

Inhalation: Move person to fresh air. If not breathing, clear airway and start artificial respiration and call 911 immediate. If victim is having trouble breathing, give supplemental oxygen if available. Seek immediate medical attention.

SECTION 5: FIRE FIGHTING MEASURES

Flash Point: >199.99°F **Flammable Limits:** Not known. **Extinguishing Media:** Dry Chemical, Foam, and Water.

Special Fire Fighting Procedures: Must wear NIOSH/MSHA approved self-contained breathing apparatus and protective clothing. Cool fire-exposed containers with water spray. **Unusual Fire and Explosion Hazards:** Products of combustion are toxic.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Release or Spill: Avoid walking in spill – floors may become slippery. Wear appropriate protective gear and respiratory protection where mist or vapors of unknown concentrations may be generated (self-contained breathing apparatus preferred). Dike and contain spill with inert material (sand, earth, etc.) and transfer the liquid and solid separately to containers for recovery or disposal.

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.
